REAL PROPERTY MASTER PLANNING COMMUNITY OF PRACTICE CONCEPT OF SUPPORT

draft

Background

- The Army's Master Planning program most valuable asset is the core of master planners that provide planning services.
- The challenge

develop tools, training, and support to ensure consistent level of support

Tools

- Develop a seamless set of tools (i.e MP portal, IKO Portal, MPI) that provides easy support to Army planners
- Provide a system that provides close communication/coordination throughout the Planning community.

Training

- Good foundation level functional training with the RP MP Course, MP Applied Skills course supplemented with workshops
- Need to investigate where the gaps in training are (functional approach, delivery methodologies,etc) and develop training strategy
- Promote professional development

Consistent Level of Support

- Develop methods of more effectively leveraging USACE planning experts
  - Provide direct funded Master Planners to IMA (HQ IMA, Regions, Installations)
  - Provide directed funded capability to support MP/GIS working groups
- Develop HQ USACE/HQ IMA QA/QC board to ensure all products/services are consistently developed.
- Formalize USACE Community of Practice Plan

Next steps

- Solicit comments/involvement from Planning Community
- Formulate concepts to ACSIM/HQ IMA/HQ USACE for approval.
